MOTIVATION LETTER

For candidacy for IUSY Control Commission member

I am hereby stating my candidacy for the Control Commission member within IUSY.

CSDY has always been involved working with IUSY and YES organizations and that is just one of the very important reasons why am I stating my candidacy.

For years I have been involved in international work and cooperation, especially within the region, but also in Europe and rest of the world, and I have been member of CSDY for 10 years passing all the levels from founding municipality and later on also county organization, being member of Central Committee and now being an International Secretary.

One of my first international participation was IUSY's Balkan Round Table in Belgrade, and later on I have also participated School of Democracy in Reggio Emilia in Italy, organized by S&D group in EP which resulted in founding Graduates of Democracy organization where I was elected VP for internal coordination and that function I have proudly served for mandate of one year. During this period we were building the organization, we wrote the Statute, Communication codex, enforced Safe space policy and conducted and implemented those documents. I was also one of the members who participated in creating content for our very lucrative blog and also I had an opportunity to present Policy proposals in the name of Economy group to S&D group in EP in Brussels.

Recently I had the honor to be the one who, in the name of the CSDY, signed the SD9 cooperation agreement in Ljubljana, Slovenia which is the first agreement signed between youth organizations of former Yugoslavia countries.

As an International secretary I have implemented the practice of mandatory reports from every single international event that our members have participated so all the members would have insight in international activities but also to keep archive and transfer the knowledge to generations to come.

I consider Statutes, Rules of procedure or however we like to call them to be very important for proper work of any organization and being the member of Control Commission of IUSY I believe is the best way to learn about the organization.

It would be a great pleasure and honor to be able to be a support for other working bodies of IUSY through this function.

If I get elected I can guarantee that I will be in disposition for every possible inquiry or situation that will be presented to Control Commission but I also promise rethinking of rules if they present themselves as nonfunctioning or out of date, in cooperation with other working bodies of IUSY. I will stand strong for transparency of IUSY's work, objectiveness in deciding and I will give my complete devotion to the idea and project that IUSY represents and stands for.

For solidarity and equality!

Sincerely,

Eva Amalija Orešković

International Secretary of CSDY
