

Occupied Jerusalem 28th December 2017

Dear comrades,

My name is Saif Aqel, I'm 23 years old, I hold a Bachelor of Mechanical Engineering from An-Najah National University; Palestine. I am a member of the GUPS Palestine for more than 5 years, since I was student in the secondary school, I started my political life, at different levels. I am very humbled to be elected as student councilor at An Najah university, and to lead the social committee inside the student council for two years,

I am very pleased that GUPS has become full members in the IUSY family, which will enable us to play bigger role in the building of our organizations, and to share our knowledge and experienced with our comrades from all over the world, It would be a great honor for me, to be member in the IUSY Control Commission during the next two years.

According to our statute the control commission has a lot of obligations and a high responsibility for the stability of development of our organization, and based in my believe on the responsibility I have to hold during my turn such as be sure that we watch over the finances and to control the execution of the democratic decisions of all IUSY bodies, In my opinion, the control commission doors should always be open for all the member organizations ...be consequently supporting the compliance of the statute and of democratic decisions ...be a good team player in many ways ...be fair, transparent and create confidence ...act thoughtful in case of conflicts ...regularly attending the meetings and to take time if necessary

It is necessary for our organization that we communicate to all members in our organizations the legitimate hope, that we have to stand for and fight for a social democratic world , which can rend possible more social justice, more democracy and more sustainability. An efficient organization with clear rules, good finances and a strong will for collaboration is a key contributor to reach this goal.

Socialist regards

Saif Aqel
