

Dear Representatives

of the International Union of Socialist Youths Congress,

My name is Jalal ,31 . I live in Kurdistan . As I am an activist since the age of 18 I was exposed to so many straggles, that shaped me, inspired me and gave me hope. Women rights, minorities, refugees, all problems that each and every one of us face at his/her home, we all are facing them globally too.

4 years ago I started to participate in IUSY events , Since then I worked hard to introduce socialism idea in my country . We have facing many challenges, with partners from country who are dedicated to the ideas of equality, justice and peace.

I can get benefit of experiences and ideas of IUSY members to achieve what we believe which is equality, justice and peace for everyone .

Socialist Regards,

Jalal Rawangard
