Dear comrades, dear friends,

I would like to present my candidacy to the position of IUSY Control Commission member

First of all I would like to express my admiration to IUSY. It is such a huge impactfull political youth organization holding young socialist and young social democratic from all over the world for more than a century to fight for freedom , democracy and human rights . I really appreciate that this movement and platform is empowering the youth to take actions and fight side by side struggling for peace ,equality and democracy because solidarity isn't just a statement, it's an action towards peace . and I am someone who believe in change cause through my entire experience in AIESEC organisation and the youth socialist democrats organization I learned that to achieve a better world each one of us must work together , takes a part of responsibility and join the fight.

Furthermore , I 'm tremendously motivated to join you to make an impact , to make a change. I always want to contribute to this organization by giving support and sharing my experience and ideas , hence by being in IUSY team will be the perfect opportunity for me . Also this would allow me to deepen my knowledge and develop my skills in the field of politics and social democracy.
I count on your support dear comrades .

Best regards,

Ines Nabi
