

To the IUSY Control Commission

To the IUSY Secretariat

To the IUSY Presidium

Dear comrades,

On behalf of Giovani Democratici of Italy we are glad to nominate Caterina Cerroni for the position of IUSY Vice President, to be elected in the 33th IUSY Congress, in Bečići, Montenegro.

We Giovani Democratici have always considered our work in the youth organizations of the international socialist family our core priority. Indeed, we consider the International Union of Socialist Youth as a fundamental body through which important international progressive goals can succeed.

The struggles of fighting raising inequality and tackling poverty, the massive migratory crisis, the issue of climate change and sustainable global development, the fight against terrorism and organized crime, providing peace in warzones, are just a few of the topics that nowadays require a global and progressive approach.

We call for a great socialist, socialdemocratic and labour youth organization, able to bring awareness to these battles, without borders and in the spirit of true international solidarity. We all feel the urgency to favour mobilization and political activism at the highest scale possible and IUSY is a major resource for all of us to reach the goals aforementioned.

Therefore, we are happy to continue to commit ourselves to IUSY by guaranteeing our enthusiastic participation to IUSY campaigns and activities and by presenting our nomination to the executive bodies of the organization.

Caterina Cerroni has always focused her political engagement on European and international issues. Nowadays she is Responsible for European Affairs in GD National Board, working a lot on European integration and human rights, and YES bureau member on behalf of GD Italy. In many years of political commitment she made many international experiences. Caterina has been head of delegation for GD Italy at Terrasini YES Summer Camp and member of GD delegation at the YES Congress of Winterthur (2015) and Duisburg (2017). In december, as member of the delegation of the Democratic Party, our mother party, she also took part at “CPC in Dialogue with World Political Parties HighLevel Meeting”, a global meeting promoted by CPC in Beijing.

So we think Caterina has skills, competences and passion that allow her to be a suitable candidate that would perform at best the office she is running for.

In light of these reasons, the Giovani Democratici strongly support her candidacy.

Thank you for your attention and have a great congress.

With socialist regards,

Rome, 30th December, 2017

Mattia Zunino  
GD Secretary
