Seif Aqel
GUPS - Palestine

Running for IUSY Vice-President

The challenges that face the socialists and social democrat family around the world, put us in position where we have to stand steadfastly for our values and principles, against the waves of Populism, Radicalism, tyranny, violence, discrimination and occupation.

As a Palestinian who still suffering the occupation, apartheid and day-to-day challenges, and as a person who is part of region which teared up by wars, sectarianism, tyranny and extremism. I strongly believe that IUSY should be the voice for the people who lost hope and enthusiasm for just life, IUSY can revive the lost hope and Promote for the world Peace by start taking actions through implementing regional and global campaigns, forming an active media and social media body which interacts with all the events from different regions, lobbying and advocate for all the just causes in the international bodies and promote the achievements of the socialists and social democrat parties and governments.

Today, after finishing a successful mandate as a member of IUSY Control Commission for the past 2 years, which gave me very deep understanding on how IUSY works and what’s needed to maintain what has been accomplished by IUSY over the years, as one of the oldest and biggest Political organizations that unites all the young socialists and social democrats in the world. I would like to continue the work and Honorably present my candidacy for the Position of IUSY Vice-President for the Mediterranean committee for the next 2 years.

Socialist regards,

Seif Aqel
