Peace Thematic Network (PTN)

Initiative for IUSY Congress 29.02.2020 – GDY

Nowadays, we see different types of international and local conflicts. There are more than 40 international conflicts around the globe. In the peaceful process of dispute settlement, the younger generation and the dialogues do have the key roles.

There are conflicts in the Black Sea region too. In Georgia we have territorial conflicts. Remained status-quos do sometimes mean the peace. However, the core importance has the dispute settlement and reconciliation. This idea was first announced by GDY during BSAC meeting in 2017 and afterwards, during Presidium and BSAC in Georgia last year.

That is why, we - youth organization of “Georgian Dream-Democratic Georgia” as a full member of IUSY, decided to announce this initiative: “Peace Sub-committee – Peace Thematic Network (PTN)”. The PTN will work on the international conflicts recognized by the UN. We will engage by using peaceful means and enhancing the negotiations.

Members of the Network:

From all the regions of the IUSY.

• IUSY members and observer members;
• Invited organizations and guests.

Type of Work:

During 2020 we can organize international projects and events, such as: conferences, round tables, workshops, research studies, on-site visits, etc. In these projects representatives of conflict parties (if agreed) and experts, guests and civic sectors will be kindly invited.
Besides, the PTN can offer drafts of resolutions to BSAC, Presidium or IUSY in general.

The network will have a coordinator who will work with the IUSY. The coordinator will initiate and organize the projects for IUSY members and third parties.

For such international union, as it is IUSY, our region (and not only) could be very interesting regarding dispute settlement. For political processes and research aims.

We offer to host first events by the autumn of 2020 here, in Georgia. All logistic details will be discussed with IUSY.
