Motivation

During the last century, We went through severe socio-economic conditions because of the influence of the fascists and traditionalistic extremists. Today, we are still facing these burgeoning powers which stand in the way of our obstinate struggle and combat for a better and more equitable world. Although we have gone through a century marked by discrimination and marginalization against opposition groups and interests, the lives of citizens have been influenced by the extreme capitalist policies, which triggered several movements of young people and civil society, these inclinations encountered circumventions at the level of the inflexibility of the result as well as the various ramifications of the groups of lefts regarding the values and ideals of our common fights our search for solutions was veiled by our frailty against the oppressors of the fundamentals of our human rights.

Our organisation has always been a pillar of the defence and the campaign of our leftist convictions. Today we are the largest youth organization in the world and our union will always work to diffuse our ideas of freedom, equality and democracy for a better world for generations to come. Whether we are socialists, social democrats or socialist democrats, we must build on our shared values and visions to fight scarcity, inequality, disparity and division in our world politics and for the improvement of humankind.

I am confident of the experiences acquired so far as a member of the national office of the Ittihadi Youth, this experience has buttressed my conviction that collectively we can accomplish a lot.

Political Programs and Visions

As an IUSY Control Commission member, I plan to take philistine steps to improve our advocacy forces to overcome the current challenges encountered by our movement around the world. I am trusting that our advocacy for the respect of fundamental human rights, equality, justice and equity will expend to cover the globe if we endeavour to become the voice of reason.

I aim to focus on many issues, especially:

1- Parity:
As a concept and a goal that strives to acknowledge the equal value of women and men, parity, is an essential feature of our commitment to attain our democracy goals. As IUSY Control Commission member I will make sure that our pledge for rendering visible the equal dignity of women and men so they can enjoy equality and freedom in their participation at every level and every sphere.

2- The modernization of penal code:
The modernization of penal code guarantees the respect of fundamental human rights, and the harmonization of the texts with international conventions and the introduction of new crimes including genocide enforced disappearance, ethnic and racial cleansing. I expect to focus on the concept of public order, the humanization of sentences, the adequacy between legal management and the degree of responsibility, the adequacy of the sentence and the crime, and the personalization of responsibility.

3- Territorial justice:
Our union strives for spreading social justice and equality in all territories and countries. Our work to chase poverty, unemployment and to give access to welfare services is a vital stream for our organisation’s quest for social equity. As a Control Commission member, I will make sure to come up with the most innovative and efficient programs focused on both social and economic equalities.

Increase IUSY’s presence in Morocco
We can expand our attendance in Morocco by developing the current activities, and by coaching and hoisting the potentials of young leaders. This could be accomplished through continuous training and follow-ups. We can focus particularly on:

- opening to the needs of Moroccan youth leaders and help them overcome their current hindrances.
- providing more technical and practical training while working on real-time projects.

At IUSY, we have what it takes to make the world a better place than it is now. The resolute solidarity of our members is making our union more robust and able to achieve more than our existing goals. With these hopes for an engaged and a proactive Union, I plead you all to support my candidacy as Control Commission member of IUSY.

With Socialist Regards,
